Subject: Data review
Attachments: Excerpts.pdf; Navy Import Soil Rad Data_020118.xlsx

Judy and Yolanda:

I'm not sure of the exact nature of your questions about Navy import (i.e. mentioned on the BCT call today) but please see the attached that Langan compiled for me last year when I was wanting to know about prior Navy import. There are three worksheets in the workbook with various information. And the PDF is the excerpts from source documents.

I'm happy to discuss my level of knowledge about the attached. However, I'll need to caution that if you want to dive deep into the details we may need to get Christina on a call since she was the one who directed the compilation. She'll be back from maternity leave the week of April 15.

And I also need to state the caveat that, while Langan is meticulous in its work, this was a side project request (i.e. I didn't ask for any QA/QC process for the data import) so someone would need to verify the data from the original sources before using the information to draw any conclusions.

NOTE: I'll be out of office tomorrow April 5

sincerely,

Amy Brownell, P.E.
